- Filipino
- Bisaya

OBJECTIVE

To obtain an entry-level Web Developer position where I can apply my knowledge and skills in web development, improve my technical abilities, gain practical industry experience, and contribute positively to the company through dedication, creativity, and continuous learning

ABOUT ME

I am a Bachelor of Science in Information Technology (BSIT) student with a strong interest in web development and modern technologies. I am responsible, willing to learn, and committed to developing my technical and communication skills. I am eager to gain practical experience and contribute to a professional working environment.

PROJECTS

1. **Personal Portfolio Website**
   Developed a responsive personal portfolio website using modern web technologies to showcase personal information, skills, projects, and contact details.
2. **Product Management / E-Commerce Website**
   Developed a React and Vite-based product management website with a modern interface for displaying and managing products.
3. **Personal Finance App UI**
   Created a modern user interface design for a personal finance management application.

EXPERIENCE / OJT

On-the-Job Training / IT Experience

Gained practical experience through academic and IT-related projects, including web development, website testing, source-code management, and troubleshooting.
